Description

Purpose or significance of data

The data in layer RIFGrantees is derived from Rural Innovation Fund (RIF) Grantee submissions that were either described in detail in their applications by providing census tract or block level data or block level extractions from Grantees that utilized the HUDUser.org mapping tool. Each Grantee was allowed up to three target area locations according to the RIF NOFA. Some Grantee locations serve the same target areas so the map layer does include some overlapping boundaries.

Data Current As Of: 12/03/2014

- ☐ Do not harvest. All data is small, unstructured, and on a page crawlable by the Internet Archive.
- ☐ Page contains dynamic content (e.g., links loaded by JavaScript).
- ☐ Page contains interactive visualizations.
- ☒ Data is accessible in structured file(s) that can be directly downloaded.
- ☐ Data is accessible over FTP.
- ☐ Data is accessible using a documented public API.
- ☐ Data is only accessible using search queries in a web form.

Recommended approach to harvesting data

.....

File formats

CSV, zipped Shapefile assets

.....

Estimated size in MB

.....

Where you able to capture all of the data at this URL?

☒ Yes

☐ No

Harvest method used

wget shell script to get CSV, zipped Shapefile assets

Notes from Harvest

User certified that to the best of their knowledge this is a well-checked bag that will survive out of context of the site it was harvested from.

☐ Yes

Notes from Bagging

Extracted without bagging

Notes from Describe
