Description

Purpose or significance of data

This full-text file presents the annual summary of indexes of prices received and paid by farmers; prices received for farm commodities by states and prices paid for production items by region and the U.S., past year and earlier years.

Beginning in 2010, the Agricultural Prices Summary is no longer published. All price data series are available from NASS' online Quick Stats database. These data are updated monthly by commodity with the most current estimates available.

- ☐ Do not harvest. All data is small, unstructured, and on a page crawlable by the Internet Archive.
- ☐ Page contains dynamic content (e.g., links loaded by JavaScript).
- ☐ Page contains interactive visualizations.
- ☒ Data is accessible in structured file(s) that can be directly downloaded.
- ☐ Data is accessible over FTP.
- ☐ Data is accessible using a documented public API.
- ☐ Data is only accessible using search queries in a web form.

Recommended approach to harvesting data

wget

File formats

pdf, txt, zip

Estimated size in MB

Where you able to capture all of the data at this URL?

☒ Yes

☐ No

Harvest method used

wget

Notes from Harvest

All years' data was in pdf files. A few years also had zip files containing data in csv format. Fewer years had txt files containing the same info as the pdf files. Harvest URL needs review.

User certified that to the best of their knowledge this is a well-checked bag that will survive out of context of the site it was harvested from.

☒ Yes

Notes from Bagging

Notes from Describe

Skipped during Describe: "Add CKAN record to "Data Rescue Events" group"
