Description

Purpose or significance of data

This map layer displays the planning areas of the winners of the Sustainable Communities Regional Planning Grant competition for FY2010 and FY2011. Program applicants were required to designate their planning area according to a set of criteria given in the Notice of Funding Availability, which in most circumstances ensured that applicant geographies would be composed of counties, MSAs, or the planning areas of Metropolitan Planning Organizations. The majority of geographies in this file were assembled from county, MSA, and MPO shapefiles available on servers or publicly elsewhere. The remaining geographies used publicly available geospatial data such as municipal line files and tribal boundaries.

Data Current As Of: 12/03/2014

- ☐ Do not harvest. All data is small, unstructured, and on a page crawlable by the Internet Archive.
- ☐ Page contains dynamic content (e.g., links loaded by JavaScript).
- ☐ Page contains interactive visualizations.
- ☑ Data is accessible in structured file(s) that can be directly downloaded.
- ☐ Data is accessible over FTP.
- ☐ Data is accessible using a documented public API.
- ☐ Data is only accessible using search queries in a web form.

Recommended approach to harvesting data
