## Description

---

### Purpose or significance of data

This site has news, photos, and other information about selected oil spills (and other incidents) where NOAA's Office of Response and Restoration (OR&R) provided scientific support for the incident response. It contains information on thousands of historical incidents spanning 30 years of OR&R spill response.

It covers selected oil spills off US coastal waters and other incidents where NOAA's Office of Response and Restoration (OR&R) provided scientific support for the spill response. Some older records between 1957 and 1984 come from third-party databases. We hope that researchers and other interested members of the public will find this information useful.

Web site owner: Emergency Response Division, Office of Response and Restoration, National Ocean Service, National Oceanic and Atmospheric Administration

---

- ☐ Do not harvest. All data is small, unstructured, and on a page crawlable by the Internet Archive.
- ☐ Page contains dynamic content (e.g., links loaded by JavaScript).
- ☐ Page contains interactive visualizations.
- ☒ Data is accessible in structured file(s) that can be directly downloaded.
- ☐ Data is accessible over FTP.
- ☐ Data is accessible using a documented public API.
- ☐ Data is only accessible using search queries in a web form.

## Recommended approach to harvesting data

---

### File formats

CSV

---

### Estimated size in MB

2.2MB

---

### Related URLs

<https://incidentnews.noaa.gov/>

---

Where you able to capture all of the data at this URL?

☒ Yes

☐ No

### Harvest method used

Flat file downloadable via url embedded in page.

---

### Notes from Harvest

---

User certified that to the best of their knowledge this is a well-checked bag that will survive out of context of the site it was harvested from.

☐ Yes
