**DISTANCE EDUCATION COURSES FOR PUBLIC ELEMENTARY AND
SECONDARY SCHOOL STUDENTS: 2002-03
FAST RESPONSE SURVEY SYSTEM**

O.M.B. APPROVED
No.: 1850-0733

This survey is authorized by law (P.L. 103-382). While participation in this survey is voluntary, your cooperation is critical to make the results of this survey comprehensive, accurate, and timely.

- **Distance education courses are credit-granting courses offered to elementary and secondary school students enrolled in your district in which the teacher and students are in different locations. These courses:**
 - may originate from your district or from other entities (e.g., a state virtual school or a postsecondary institution).
 - can be delivered via audio, video (live or prerecorded), or Internet or other computer technologies, including both synchronous (i.e., simultaneous or "real time") and asynchronous (i.e., not simultaneous) instruction.
 - may include occasional face-to-face interactions between the teacher and the students. For example, a teacher teaching a course at several schools via video-conferencing may rotate between schools, or the teacher and students may be in the same location for occasional lab work or tests.
- **Include information about distance education Advanced Placement or college-level courses in which students in your district were enrolled.**
- **For purposes of this survey, do *not* include information about:**
 - supplemental course materials, virtual field trips, online homework, or staff professional development.
 - courses conducted mainly via written correspondence.
- **Include information for all schools administered by your district (e.g., regular schools, charter schools, magnet schools, alternative schools, special education schools, etc.).**
- **The time frame for this survey is the 12-month 2002-03 school year.** This includes distance education courses during the summer of 2002 or the summer of 2003, depending on how records are kept at your district.
