**DISTANCE EDUCATION COURSES FOR PUBLIC ELEMENTARY AND
SECONDARY SCHOOL STUDENTS: 2009-10
FAST RESPONSE SURVEY SYSTEM**

FORM APPROVED
O.M.B. No.: 1850-0733
EXPIRATION DATE: 06/2012

This survey is authorized by law (Education Sciences Reform Act of 2002, 20 U.S.C. 9543). While participation in this survey is voluntary, your cooperation is critical to make the results of this survey comprehensive, accurate, and timely. Your answers may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose unless otherwise compelled by law (Education Sciences Reform Act of 2002, 20 U.S.C. 9573).

DEFINITION OF DISTANCE EDUCATION

Distance education courses are courses offered to elementary and secondary school students regularly enrolled in your district that must meet all of the following criteria:

- **be credit-granting; and**
- **be technology-delivered** via audio, video (live or prerecorded), the Internet, or other computer-based technology (e.g., via district network); **and**
- **have either (a) the instructor in a different location than the students and/or (b) the course content developed in, or delivered from, a different location than that of the students.**

For the purposes of this survey, do *not* include information about supplemental course materials, virtual field trips, online homework, technology-assisted courses that are primarily taught by a classroom-based instructor, test preparation courses that are not credit-granting, courses conducted mainly via written correspondence, or staff professional development.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1850-0733. The time required to complete this information collection is estimated to average 30 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate or suggestions for improving this form, please write to: U.S. Department of Education, Washington, DC 20202-4651. If you have any comments or concerns regarding the status of your individual submission of this form, write directly to: National Center for Education Statistics, 1990 K Street, NW, Washington, DC 20006.

INSTRUCTIONS

1. Please report information for all schools administered by your district (e.g., regular schools, charter schools, magnet schools, alternative schools, special education schools, etc.).
2. For all questions except question 19, report information only for students regularly enrolled in your district. Do not report information for students enrolled in schools that are not administered by your district (e.g., students from other districts, private school students, or homeschooled students).
3. Please provide the most complete information available, taking into account any distance education courses taken by students regularly enrolled in your district, regardless of where the courses originated. However, distance education courses that students take independently or that are provided by entities outside the control of the district should not be included unless the district has access to enrollment and monitoring information for those courses.
4. The time frame for this survey is the 12-month 2009–10 school year. This includes distance education courses during the summer of 2009 or the summer of 2010, depending on how records are kept at your district. References to “2009–10” in the survey questions refer to this 12-month school year.
5. The following definition applies to all questions on the survey.

DEFINITION OF DISTANCE EDUCATION

Distance education courses are courses offered to elementary and secondary school students regularly enrolled in your district that must meet all of the following criteria:

- **be credit-granting** (for elementary schools, “credit-granting” refers to any course that results in a letter grade or a pass/fail designation and is required of a student to complete a program of study or move to the next grade level); and
- **be technology-delivered** via audio, video (live or prerecorded), the Internet, or other computer-based technology (e.g., via district network); and
- **have either (a) the instructor in a different location than the students and/or (b) the course content developed in, or delivered from, a different location than that of the students.**

For the purposes of this survey, exclude:

- supplemental course materials, virtual field trips, online homework, or technology-assisted courses that are primarily taught by a classroom-based instructor.
- test preparation courses that are not credit-granting.
- courses conducted mainly via written correspondence.
- staff professional development.

For the purposes of this survey, include any of the following *if they meet the distance education criteria above*:

- courses that have a teacher or assistant in the room who monitors but gives little or no instruction to the students (e.g., course taken entirely on computer in a lab supervised by a teacher who does not provide instruction).
- courses that include occasional face-to-face interactions between the course instructor and the students. For example, a teacher teaching a course at several schools via computer technology may rotate between schools, or the instructor and students may be in the same location for orientation or occasional lab work or tests.
- courses that originate from your district or from other entities (e.g., a state virtual school or a postsecondary institution).
- courses with synchronous (i.e., simultaneous or “real time”) and/or asynchronous (i.e., not simultaneous) instruction.
- courses taken by students in school, at home, or in some other location.
- courses taken by students to continue coursework while temporarily unable to attend school (e.g., while on home or hospital instruction, or on extended travel for personal or family reasons).
- courses taken for credit or grade recovery.
- courses taken for Advanced Placement credit or for college-level or dual credit. Dual credit college-level courses are courses for which students receive both high school and college credits.

Before you answer the questions, please carefully read the definition and instructions.

1. Of the elementary and secondary students regularly enrolled in your district, were any enrolled in **distance education courses** in 2009–10? (*Refer to definition on previous page.*)

Yes..... 1 (*Continue with question 2.*) No..... 2 (*Stop. Complete respondent section on front and return questionnaire.*)

2. For the 12-month 2009–10 school year, report the number of **enrollments** in distance education courses of students regularly enrolled in your district.

- Only include enrollments in credit-granting courses. Do not include information for supplemental course materials, virtual field trips, online homework, technology-assisted courses, or courses conducted mainly via written correspondence.
- The number of enrollments may include **duplicated** counts of students; i.e., a student should be counted for each course in which he/she was enrolled.
- Count each enrollment at only one instructional level. Enter “0” if there were no students in your district enrolled in distance education courses at an instructional level in 2009–10.
- The sum of b through e should equal the total in item a.

- a. **Total number of enrollments in distance education courses** _____
- b. Number of enrollments in distance education courses in **elementary schools** _____
- c. Number of enrollments in distance education courses in **middle or junior high schools** _____
